Design Angelica Lucatello

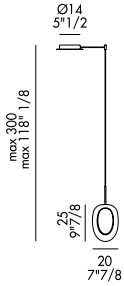

La lampada Fos è la lampada da terra che sfida la simmetria e celebra l'imperfezione, esprimendo funzionalità ed estetica in perfetto equilibrio.
Il designer Angelica Lucatello ha voluto rendere omaggio al concetto di naturalezza e spontaneità: un complemento di design dalla forma unica e avvolgente, ideale per arredare con stile gli spazi del living ma anche luoghi di lavoro sofisticati.
Le linee morbide e le curve irregolari connotano questa **lampada da terra di design** che diffonde una luce delicata rendendo l'atmosfera di ogni ambiente suggestiva. L'ispirazione nasce dalla reinterpretazione delle forme organiche, attraverso un'armonia che dà vita a uno spazio accogliente.
La luce che emana la lampada Fos si espande delicatamente sulle superfici e avvolge l'ambiente in un'aurea calda.
Caratteristiche uniche di questo elemento di illuminazione sono i paralumi in vetro borosilicato fumè.
Disponibile anche la versione sospensione.
